EXPERIENCE

Robbins-Gioia, Remote — *Front-end UI Developer & Lead UX Designer*

September 2022 - March 2025

- ❖ Design and develop scalable, reusable HTML and SCSS templates for high-performance scheduling applications.
- ❖ Collaborate with multiple development teams to ensure a modern, sustainable codebase and maintain a cohesive, user-friendly design.
- ❖ Refactor and modernize SQL-driven HTML output into dynamic, responsive layouts within an Angular framework, improving efficiency and reducing technical debt.
- ❖ Optimize performance while implementing best practices in accessibility, responsiveness, and maintainability.
- ❖ Translate business requirements into intuitive UI layouts and reusable component libraries using Figma for precision and consistency.

Service Link, Remote — *Front-end UI Developer*

September 2021 - August 2022

- ❖ Develop and optimize scalable, reusable HTML and CSS templates for multiple single-page applications.
- ❖ Collaborate with UX design teams to maintain a modern, consistent HTML-driven design system, ensuring a seamless user experience.
- ❖ Streamline communication and asset organization for remote teams across time zones, reducing misalignment and improving workflow efficiency.
- ❖ Migrate HTML templates from AngularJS to Angular, eliminating code debt and enhancing performance.
- ❖ Transform business requirements and Adobe XD layouts into fluid, reusable HTML and CSS components, ensuring flexibility and maintainability.

Wordpress | Drupal 7
AngularJS | Angular (v8+)
Bootstrap (v2-5)

EXPERIENCE

Heartland ECSI, Warrendale, PA | Remote — *Front-end UI Developer*

June 2019 - August 2021

- ❖ Collaborate with clients and offshore teams to modernize development methodologies and streamline implementations.
- ❖ Design and deploy WCAG-compliant HTML structures and content, ensuring accessibility and usability for all users.
- ❖ Champion accessible design by advocating for inclusive testing and implementation practices, improving application usability and strengthening client relationships.
- ❖ Manage and maintain HTML & CSS for single-page applications (SPAs) built with AngularJS, optimizing performance and maintainability.
- ❖ Develop and implement a comprehensive WCAG-based testing strategy with offshore developers and QA teams to ensure compliance and quality.

Ciber Inc., Pittsburgh, PA — *Front-end Developer*

May 2014 - December 2018

Bayer Engagement:

- ❖ Develop websites and marketing tools, managing content using style guides, functionality specs, and wireframes for long-term projects such as Bayer's Radiology Solution.
- ❖ Build and maintain CMS-hosted templates within TeamSite, Drupal 7, Oracle Endeca, and Episerver, ensuring efficient content delivery and structure.
- ❖ Design and implement mobile-first frameworks to modernize legacy websites, including Bayer's Flintstones Vitamins and Aleve, optimizing responsiveness and user experience.

Gateway Health Engagement:

- ❖ Manage content across multiple websites hosted in DotNetNuke (DNN), ensuring structure and usability.
- ❖ Develop and customize HTML templates for DNN themes, optimizing responsiveness and aesthetics.
- ❖ Design and implement a mobile-first, self-contained UX for dynamic, user-driven content filtering, enhancing interactivity and accessibility.
- ❖ Construct multiple HTML forms with integrated CSS and JavaScript validation, improving user input accuracy and experience.

EDUCATION

Art Institute of Pittsburgh, Pittsburgh, PA — *Associate of Science Degree in Web Design and Interactive Media*

October 2011 - March 2014

Best Portfolio: Web Design & Interactive Media – Winter 2014

EXPERIENCE

Education Management Corporation, Pittsburgh, PA | Remote — *Front-end Developer*

July 2014 - May 2017

- ❖ Develop and oversee the content of redesigned UI templates, directly enhancing the functionality and user experience of 50-60 websites.
- ❖ Ensure consistency and usability across multiple platforms by maintaining structured, accessible, and visually cohesive templates.
- ❖ Optimize design workflows to support scalability and improve efficiency in managing high-volume web content.
